

Criminal Background Checks

Why do Criminal Background Checks?

How do we protect our children? Reports of sexual predators and child abuse are all too familiar. This is a complex issue and many youth sports organizations are unclear about what to do or how to approach this threat. Yet a proactive approach is needed today to prevent children from becoming innocent victims. ***Don't put your children at risk!***

Fortunately, youth sports associations now have a simple and inexpensive tool to avoid some of society's worst fears.

Why use the MYAS / Trusted Employees system to screen your coaches?

The MYAS, with its partner, Trusted Employees, has designed a criminal background check system that offers three affordable options to youth sports association. Trusted Employees, a local Twin Cities company, incorporates a "user friendly" process combined with a "paperless" release system to make this system easy and inexpensive for your organization. Using this system means results are guaranteed same day or next day. And if you have questions along the way, your personal account representative will be on hand to help you.

The process is simple. Order entry is conducted within your own safe portal within your Trusted Employees personal website. You may even use the APPLY NOW feature to have your coaches enter their own information through an on-line release! This makes the process completely paperless! Results can be accessed the same day or next day.

Here is a list of the available packages.
